Comments:

I would like to know the history of the Gold King mine. Who originally owned it, who subsequently owned it, how many \$ were removed, who were the "Board of Directors" if publicly held, etc. Someone needs to write about how the Private Sector took the money, left the mess and now is blaming the EPA. I would like to write about this; please send me where I can get help. It looks just like the giant unresolved coal power plant sludge problems that the Utilities will walk away from. Thanks!
